More Trouble With the Greeks.

WASHINGTON, December 19 .- The following dispatch from Agent Tufts, Muscogee, Indian Territory, was received at the Indian Bureau: "To-day the Creek Council inaugurated Ispaichiche Chief. Perryman, present Chief, refuses give away." Perryman was in-sugurated chief on the 5th of the present month, after the different factions of Creeks agreed to abide by the results of the popular election. It is believed the serious trouble impending was averted, but the dispatch of Tufts is regarded at the Indian Bureau as indicative of further factional strife.

## Who Wants a Mint?

WASHINGTON, December 17 .- The question of a new mint is up again. Thus far the friends of New York and of Louisville alone seem to be doing the work. In the last Congress it was proved, at least to the satisfaction of those who submitted the evidence, that Cincinnati was in the exact center of the mint vacuum, and that everything necessary to the coinage of money had been lavishly provided by the hand of nature. But if Cincinnati really wants a mint this evidence will have to be presented to the new Congress.

## Report on Petroleum in Russia.

WASHINGTON, December 20.-Fulton Paul, U. S. Consul at Odessa, Russia, forwarded the State Department a report of petroleum development in Russia, in which he says: "The residum of the oil is much greater than that found in the States, and besides being converted into benzine, gasoline and various other useful products, it is used as fuel, with steam jet, on locomotives, and also on steamers on the Caspian Sea, the Volga and other riv ers, and experiments in progress are to utilize it in new torpedo boats now in course of construction in the Russian Navy. Crude oil is also used to sprinkle the streets of Baku, and is much more effectual than water in laying the terrible dust that ex ists there."

# Attempted Jail Delivery.

. PITTSBURG, PENN., December 19 .- A dispatch from Greensburg, thirty miles east of this city, says that five prisoners made a desperate attempt to escape this morning. They had previously been detected in an attempt to escape, and had been chained to the floor to prevent further trouble. They were quiet the first part of the night, but about two o'clock this morning they made a bold dash for liberty, breaking their chains from the floor and bursting open the doors. They assaulted the guards, but did no harm. Each time breaking loose, they were only kept secure till morning at the point of a revolver by the guards. The parties are John Noble, who recently at Scottdale; Robert Herpoltz, Thomas Taylor and Samuel Brewer, indicted for robbery, and a negro named Frank Jones, indicted for burglary.

# Suicidal Attempt of a Murderer.

ATLANTA, GA., December 18 .- To-day Henry Curry, a colored murderer, while exercising along the jail corridor, made a jump head foremost to the floor below, fracturing his skull by the concussion, and is not expected to live through the night. A year ago Curry became enamored of the wife of a negro named Daniels. The pair agreed to get rid of the husband. Cautiously entering the unsuspecting negro's room as he lay asleep, Curry dealt him a blow with an ax, splitting his head in two, and immediately made his escape. For nine months his whereabouts was unknown, when an Atlanta colored woman disclosed his hiding place in South Carolina. He was promptly arrested and confined in Walton County jail. In connection with other prisoners he attempted to fire the jail and was placed in Fulton jail for safe-keeping, where finding escape impossible made the desperate attempt at

## the cause of death. Was it Suicide?

Sr. Louis, December 18.—The dead body of W. J. Pierson was found in bed in a room in the Planter's House. His loaded pistol and a number of letters were lying on the table. There was no mark of violence about the body, and no vial of poison was found in the room. To all appearances the man had died a natural death. An examination of his effects at the Four Courts, after the body and been taken to the morgue, revealed the fact that Pierson had formerly been postmaster at Batesville, Ark., one of the largest Post-offices in the State, and that he was a defaulter to a large amount.

# Died With a Fortune in His Pockets.

ATLANTA, GA., December 20 .- This morning Mrs. Steel, alarmed at the prolonged absence of her father, D. R. Wadley, brother of the late President Wadley, of the Georgia Central, went to his room, and effecting forcible entrance, found him dead. On his person was found in money

# DOUBLE CRIME.

A Lady Outraged in a Hotel and Her Throat Cut.

The Villain Captured and Jaffed, Amid Threats of Lynching.

JOLIET, ILL., December 19 .- This morning, about two o'clock, cries of "help!" "murder!" were heard on the second floor of the Auburn House, of this city. The boarders were aroused, and the night clerk rushed upstairs just in time to see the head cook Mrs. Jane Haycock, fall to the floor with blood streaming down over the front of her night-dress. Investigation developed the fact that George Freestune, a young man twenty three years of age, who was one of the boarders, had entered Mrs. Haycock's room, and bound her head to prevent her screams, and then outraged her person. When he had finished his fiendish work he started to leave the room, when Mrs. Haycock, re-covering her senses, gave vent to terrible screams. Then, to conceal what he had done, and prevent exposure, Freestune rushed back, drew a large knife, and deliberately cut the out-raged woman's throat and fled, supposing he had killed her. Officers were summoned, and in a few minutes the culprit under arrest. His hands were covered with the blood of his victim, yet he still protested his innocence, declaring that the blood on his person was from nose-bleeding. He was given a preliminary examination this morning, and held to answer to the January term of the Circuit Court. His victim is now hovering between life and death, but every effort is being made to save her life. The affair has aroused the most tense excitement, and talk of lynching the fiend is freely expressed.

BURLINGTON, LA., December 20.—Passenger train No. 1 on the C. B. & Q. ran into the rear end of passenger train No. 5 at Gladstone, Ill., this evening, telescoping a Pullman car, which ignited and was completely destroyed. Richard Somers, superintendent ing car service of the cago, Burlington & Quincy Railway, of Chicago, was instantly killed, and his body burned almost beyond recognition. Six other passengers were more or less injured, but none probably fatally. The two coaches were consumed. The loss is about \$50,000. The engineer of No. 1 did not see the rear lights on No. 5.

Causeless Murder in Illinois. CARMI, III,, December 20.-About six o'clock this evening, while at supper in a restaurant, Enoch Ballentine, of this city, was shot in the head by Will C. Sanders, a young farmer, who resides near Cassville, in this county. There was no quarrel, and but few words passed. Sanders was in liquor, and it is supposed that an old grudge on account of a difficulty two or three years since prompted him to fire the shot. Sanders attempted to escape, but was held by Mr. Bollerman, the proprietor of the restaurant, and an officer soon arrived and took him to jail. The physicians say that Ballentine can not re-

# A Court Clerk Indicted.

PITTSBURG, PENN., December 19 .- The Grand Jury to-day returned a true bill against Arch. H. Rowland, jun., Clerk of Courts, on one of the indictments against him for embezzlement. The indictment is found from the information covering Mr. Rowland's first term of office, and charges a defalcation to the amount of \$41,755.39. There is a second indictment, still before the Grand Jury, covering Mr. Rowland's entire time in office, and alleging a defalcation of over \$46,000. Mr. Rowland who still contends that the prosecution is for political purposes, says he is glad the true bill was returned, that he is certain he will be acquitted by the petit jury, and will demand a speedy trial.

AT Glendale, Hardin County, a few days ago, James Sweeney became involved in a difficulty with his father-in-law, named Chism, over a mule, in which Chism seized an ax and cut Sweeney's left arm off just below the elbow, and then cut a gash across the other arm. Chism is under arrest.

MAYSVILLE has recently been visited by burglars and crooks. The grocery and produce stores of Geo. T. Wood and Thomas Lowry, were broken in a few nights since, and the safes in both establishments blown open. The thieves secured about \$40 only from the two stores. They were evidently after the cash aloneas the goods were not disturbed to any

During the past year the State has paid \$196.918.81 for the prosecution of criminals, \$66,471.25 for the support of idiots kept by committees, and \$492,396.19 for charities, including appropriations to asylums, maintaining idiots and lunatics kept by committees, and also the cost of transporting

lunatics to asylums. MRS. AUGUSTA PLAPERT, of Louisville, was accidentally shot a few days ago. A young man named Sam C. Spotts was in the house and had a small pepper-box pistol in his pocket. He was in the kitchen, when he suddenly felt the weapon slipping through a hole in his pocket. He attempted to change it to his coat, but it got tangled up in his pants in some way, and was discharged. Mrs. Plapert entered the room at that moment, and the ball struck her squarely between the eyes, lodging in the skull

bone. She will recover. A Young man named Shotman, who has been carrying the mail from Burksville to Albany, has been arrested, charged with robbing the mail-bag of registered letters on three different occasions, by means of a false key. After being jailed he attempted recently to take a dose of Rough on Rats, but was prevented by the interfer-

ence of a fellow-prisoner. HENRY GOOSE, of Lewis County, filed a suit in the United States Court at Louisville a few days ago, against W. W. Moore, an attorney residing at Vanceburg. The suit was to recover money alleged to have been obtained illegally. The petition states that Moore got Goose a pension amounting to \$5,000, and as attorney he claimed and retained \$2,000, whereas he was only enti-

THE Court of Appeals a few days ago overruled the petition for rehearing in the case of Bruce and Champ Fitzpatrick, who are under sentence of death for the murder of a man in Adair County, the crime having been committed last August. The day fixed for their execution having passed, the Clerk of the Court of Appeals will certify the action of the Supreme Court to Governor Knott, who will then fix the day for their execution.

# When to Make Pork.

Swine should be converted into pork before very cold weather, except young ones that are to be kept through. These must have warm, fairly clean, dry quarters or their keeping will not be a source of profit. A hog will live in a small box that he can crawl into to get out of the snow, but a hog or other animal that just lives is an expensive boarder for a man to keep. Six or seven months is long enough to make a nice piece of pork from any well bred, weaned pig, and he who takes a year for it is pretty sure to throw away three or four months' feeding material. Every 'armer ought to know that the more rapidly he converts a young pig into pork, the less the pork will cost him per pound, but too many still adhere to the old way of buying shoats in the fall and keeping them a whole year to get from three to four hundred pounds of pork. No pig that weighs forty pounds in October should be allowed to go through the heat of the following summer, but should be hurried along and made to weigh from two hundred and fifty to three hundred pounds or more, dressed, by the last of May. A barn cellar is often condemned for pigs, but if light, dry and warm, there can be no better place for them on the farm. They will keep the manure packed down solid, so it will not spoil by heating, and they will eat and grow almost as well as in summer. Pork is low just now and many will be discouraged about pork making and will keep no pigs this winter, but if hogs have usually been kept it would be foolish to let them go now, for it is not unlikely that those who do will find themselves without pork when, high prices are offered again .- New England Farmer.

# New Method of Curing Hams.

A contributor to the Country Gentleman makes a novel suggestion for smoking hams. As a substitute for the smoke house, he says, smoke a barrel thoroughly with maple or hickory chips (raise the barrel an inch or two from the ground to furnish draught), and when smoked sufficiently, sweep out the inside and give it a slight rinsing with cold water. When you have thus prepared it, pack the hams and shoulders in it, flesh side up, and pour over them the pickle in quantity sufficient to cover them, and your work is done. The pickle extracting the desired smoky flavor from the barrel, will carry it through the whole mass of meat, and much more equally, or evenly, than by the usual process of smoking, as the flavor will be as strong in the center as at the surface of the ham. In addition to this even flavoring of the meat, this process will be found to be much less troublesome and laborious, avoiding the risk of falling into the fire, of a burning smoke-house, or into the hands of thieving neighbors, beside escaping the filthiness which is inseparable from the common way of smoking, and its consequent waste when preparing it for the table, as the meat is in every way as clean when taken from the barrel as when placed in it. By this process, all the expense, labor and trouble of bagging the hams after making, to keep them from the flies is obviated, as they may be kept submerged in the pickle till wanted, or the last piece is desired for the gridiron, pot or pan. Be sure to smoke the barrel very thoroughly if you would have strong flavor of smoke in your meat.

A TERRIBLE PROPHECY.

The Red Sunsets, Cyclones and Earthquakes Foretelling Coming Disaster-How to Meet It.

The recent mysterious appearances following sunset and preceding sunrise have attracted wide attention from students of the skies and the people generally. During the days of recent weeks the sun seems to have been obscured by a thin veil of a dull leaden hue which, as the sun receded teward the herizon, became more luminous, then yellow, then orange, then red; and, as night settled down upon the earth, a dull -Mrs.Ruth Everett, of Salt Lake City, ays that the Utah women who signed he petition to Congress protesting gainst any further legislation upon pogainst any further legislation upon pocomet, in which the earth is enveloped, or a surrounding stratum of world dust or very small meteors. Professor Brooks, cf Red House Observatory, Phelps, N. Y., has turned his telescope upon these objects and discovered what he thinks are myriads of telescopic meteors. If it is unorganized world dust, or decomposed vapors, as the Democrat and Chronicle, of Rochester, N. Y., remarks: "How is this matter to be disposed of? Will it settle and form a deposit upon the earth, or remain a partial opaque shell about the earth to cut off a portion of the sun's light upon

Whatever the mystery is, there is no denying that some very strange forces are at work in the upper airs. The terrible tor-nadoes and cyclones which have swept our own country, and the fearful volcanoes and earthquakes which bave destroyed so many cities and thousands of people-the tidal waves which mysteriously rise and fall on coasts hitherto unvexed by themthe tremendous activity which is evident in the sun by the constant revelation of enormous spots upon its surface-all indicate unusual energy in the heavenly

These circumstances recall Professor Grimmer's prophecies that from 1881 to 1887, the passage of the five great planets -Mars, Neptune, Jupiter, Uranus and Saturn-around the sun would produce strange and wonderful phenomena. He says: "The waters of the earth will become more or less poisonous. The air will be foul with noisome odors. Ancient races will disappear from the earth." He attempts to prove his prophecy by the fact that in 1720, when Mars and Saturn made Pierce's "Favorite Prescription" is a cer- their passage around the sun coincidentally, great destruction and mortality visited all parts of the globe. He also found the same results in previous perihelion passages of the planets, and argues that these circumstances always produce epidemics and destructive diseases which will baffle the skill of the most eminent physicians; that the poor will die by thousands, those whose blood has been impoverished by excess of work or dissipation next, and only those who are in comparative vigor shall escape to enjoy the era of re-newed activity and prosperity which will follow the period of destruction.

Inasmuch as the entire world seems subject to the sway of the heavenly bodies no part of the earth, he thinks, can escape scourging. He even predicts that America will lose over ten millions of people; that farmers will be stricken with fear and cease to till the soil; that famine will make aid in vain. That sudden changes in ocean currents, temperature and surroundings will entirely transform the face of nature and climate of countries; that the air will be so foul with malaria and other noxious gases; that those who survive will be troubled with disorders of the digestive organs. That many who escape other ills will bloat with dropsy and suddenly pass away, while others will grow thin and drag out a miserable existence in indescribable agony for weeks. Neuralgic pains in different parts of the body will torment them. They will easily tire and become despondent. A faint, hot feeling will be succeeded by chilly sensations while hallucinations and dread of impending ill will paralyze all effort. "The birds in the air, the beasts of the field, and even the fish of the sea will become diseased, poisoning the air and poisoning the waters of the globe." We are told on the other hand that those who shall pass through this period of trial will have larger enjoyment of life and health. The earth will yield more abundantly than ever before. The animal kingdom will be more prolific and life prolonged very materially. This prelongation of life will be owing to the healthy electric and magnetic influences that will pervade the atmosphere. It would perhaps seem that the present redness of the sun, and the presence of a belt or veil of cosmic matter, justified, in a measure, the prediction of Professor Grimmer, but disturbing as his prediction may be we are told for our comfort that the strong and pure blooded need have little to fear in these calamities, that those who are delicate or indisposed should adopt means to keep the system well supported and the blood pure and that the most philosophical and effective methed of accomplishing this is to keep the kidneys and liver in good condition. From the testimonials of such men as Dr. Dio Lewis and Professor R. A. Gunn, M. D., Dean of the United States Medical college, New York, and thousands of influential non-professional people, it seems almost certain that for this purpose there is no preparation known to science equal to Warner's Safe Cure, better known as Warner's Safe Kidney and Liver Cure. This medicine has acquired the finest reputation of any preparation that was ever put upon the market. It is a radical blood purifier, which soothes and heals all inflamed organs, strengthens the nervous system, washes out all evidences of decay, regulates digestion, prevents malassimilation of food in a philosophical and rational manner, fortifies the system against climatic changes and malarial influences and the destructive agencies which seem to be so abundant in these

evil days." It is not our purpose to dispute the cor-rectness of Professor Grimmer's prophecies. As we have said, the marked disturbances of the past few years would seem to give a semblance of verification of his theory. It is certain, as above stated, that we are passing through what may be regarded as a crucial period and it is the part of wise men not to ignore, but to learn to fortify themselves against the possibility of being overcome by these evils. It is a duty which each man owes to himself and his fellows, to mitigate as much as possible the suffering of humanity and in no way better can he accomplish this purpose than to see to it that he, him-self, is fertified by the best known preparation in the strongest possible manner and that he exert the influence of his own example upon his fellows to the end that they, too, may share with him immunity frem the destructive influences which seek his ruin.

The fact is well understood that the MEXICAN MUS-TANG LINIMENT is by far the best external known for man or beast. The reason why becomes an "open secret" when we explain that "Mustang" penetrates skin, flesh, and muscle to the very bone removing all disease and soreness. No other liniment does this, hence none ether is so largely used or does such worlds of good.

JA E BURE!

For years I was afflicted with Dry Tetter of the most obstinate type. Was treated by many of the best physicians; took quantities of mercury, potash and arsenic which, instead of curing the Tetter, crippled me up with mineral poison and rheumatism. The Tetter continued to grow worse, and the itching almost made me crazy. In this condition I was induced to take Swift's Specific, and the result was as astonishing as it was gratifying. In a few menths the Tetter was entirely well, the Mercurial Poisoning all out of my system and I was a well man—and due only to Swift's Specific. All like sufferers should take it.

# A Merry Christmas To All.

KIND READERS, we wish you all a merry Christmas this morning. We do so not from custom, but from that warm and spontaneous contagion which seizes the hearts of the entire human family.

As these joyous days come and go one cannot but think that the world is grow ing better and kinder; that the feelings of the human race are growing broader and more sympathetic; that the season which celebrates the birth of the Christian religion is gladly seized upon by the unbeliever as well as the believer, as an opportunity for the expression of that kindly feeling which is too often choked The boys might take it into their heads to assist the picture man to remove. by the cares of the world,

"Good will to men" is the essence of the Christian doctrine, and though men sneer at the creeds they cannot but admit that is has been beneficiai to the world. The earth, as it is to-day, proves it. All over the land one and all have prepared evidences of affection and esteem, to be presented to-day-this day of Christmas gift. days. There are a few who will not give Could we but carry the feelings which girls merry with many a ride. now actuate us into all the transactions of the coming year, how much pain is the rainbow you read about in the would be obviated; how many tears remain unshed. But if we cannot, let us at least try at this time to feel, in truth, the meaning of these words, "On earth, distance by his horse. pcace! Good will to men."

But, dear readers, while passing through the crowded streets to-day where bake a black cake. She might have t you meet throngs of expectant faces and hundreds of dimply faces all wreathed in smiles, let's all cherish a kindly thought for others than those denominated as "our own." This is the one season when humanity should feel for humanity. While we are laying by in store for the friends of our hearts, let a remembrance me to us of those who have no friends
